

Asset Sub Menus Introduction

Wed, Jan 17, 2024 [Asset Sub Menus](#)

As well viewing and editing Asset details, there are a few more functions within the Assets module, such as adding documents and custom data. These functions can be found in the Actions ribbon menu group in the Assets module.

Note: For them to be accessible, select the asset to make amendments to.

These are the areas included in the Action ribbon menu group:

[Change Asset Location](#)

[Asset Documents](#)

[Add/Edit/View Custom Data](#)
