

Resource Sub Menus Introduction

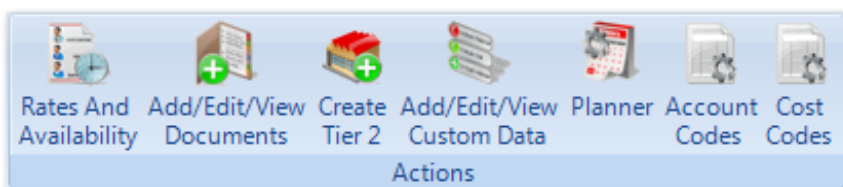

📅 Wed, Jan 17, 2024 📁 [Resource Sub Menus](#)

As well as viewing and editing External and Internal Resource, there are a few more functions within the Resource module such as adding documents, creating Branches or Tier 2 Resources and adding Work Orders to the Planner. These functions can be found in the Actions ribbon menu group in the Resources module.

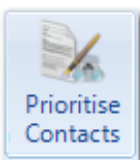

These are the areas included for the External Resource ribbon menu group:

These are the areas included for the Internal Resource ribbon menu group:

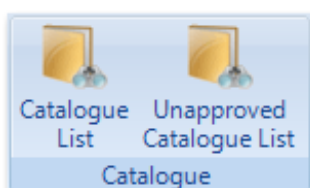

These are the areas that are present in the ribbon menu group when selecting a Contact of a Resource:

These are the areas that relate to Catalogues:

These are the areas that are present in the ribbon menu group when a selecting a Supplier:
