Contact Types

💾 Wed, Jan 17, 2024 🛛 🖿 Core Data

Each Contact in the system, whether it is a Building Contact or Resource Contact, requires a "Contact Type". The Contact Types screen allows the User to configure these types against the selected area. To view the "Contact Types", click the "Contact Types" button.

This is the "Contact Types" button:

1. The first step is to select the Client that will be used. For information on how to do this, see the Client Selection page.

2. Next, choose the type of Contact to be viewed. The options given are Building, External Resource, Internal Resource & Personnel.

Select Contact Type Association					
Building External Resource Internal Resource Personnel	1				
Filter	ОК	Cancel			

3. Once a Client has been chosen, and whether it is a Building Contact or Resource Contact, the Contact Types screen will appear. Here, it is possible to tick and un-tick the desired Contact Types depending on which types are required to be available throughout the system. As with many other parts of the application, it's possible to add items and edit items within the list using the "Add" and "Edit" buttons.

						Save	Cancel

Note: The items shown in this screen will be different depending on what option was chosen in Step 2.

4. Click "Add" to display the Add Contact Type window. In this window a Name for the new Contact Type is required. The Type field contains the type of Contact and cannot be changed. Ticking the Document Upload (PPM) tick box will automatically email the chosen contact type (where the contact type exists at the building) a copy of the document/certificate that is uploaded to the PPM by the resource. Ticking the WO Closure Email? tick box will automatically email the chosen contact type (where the contact type exists at the building) when the work order is completed by the resource. Click "OK" to add the Contact Type.

Add Contact Type	
Name	
Туре	Building 🔹
Document Upload (PPM)	
WO Closure Email?	
	OK Cancel

Note: the two tick boxes are only available if the "Building" contact type is selected in Step 2.

5. Click "Edit" to display the Edit Contact Type window. In this window, the Name of the Contact Type as well as whether they will receive the document/certificate email and/or the work order closure email. The Type field contains the type of Contact and cannot be changed. Click "OK" to apply the changes.

Edit Contact Type	
Name	General Manager
Туре	Building 👻
Document Upload (PPM)	
WO Closure Email?	
	OK Cancel

6. Once all the changes have been made, click "Save" to apply them.
