

Resource to Allocate

📅 Wed, Jan 17, 2024 📁 Buildings Tab

If the Contract was set up as an Internal Contract, an extra field is available when changing the dates of a Building. This field is called Resource to Allocate. This allows the User to select if Work Orders at this Building are to go to the Tier 1 Resource, which is selected by default, on the Contract or a Tier 2 Resource under the Tier 1 Resource. Clicking the dropdown will display a list of available Tier 2s to choose from. Select one and click "OK" to change the allocated Resource.

The screenshot shows a dialog box titled "Date Range" with a light blue background. It contains three fields: "Start Date" with the value "07 August 2014", "End Date" with the value "06 August 2015", and "Resource to Allocate" with the value "Internal Resource (default)". Each field has a dropdown arrow on the right. At the bottom right of the dialog are two buttons: "OK" and "Cancel".
