Work Order List
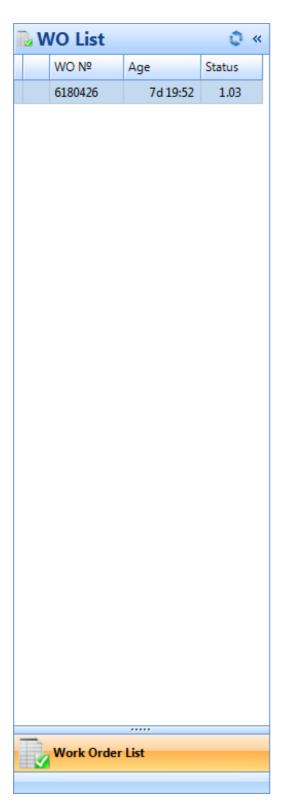

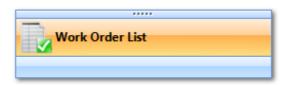

The Work Order detail screen is split into 3 different sections. The first of these sections is the WO List.

1. The WO List will show the User all Work Order numbers that they are able to view.

2. The WO List shows the age of the Work Order in days and what status it is in.

3. Use the refresh button [🔄 «] to keep the list up to date.

4. Use the list types to quickly change between different lists.
