My Building Documents

Thu, Jan 18, 2024 Portal Widgets

The Portal provides Users with the ability to view any documents (that aren't certificates) that have been uploaded against their Building(s). This is done using the "My Building Documents" widget. These documents can range from Risk Assessments to Floor Plans to Images of the Building itself. Much like "My Site Compliance", by clicking the number of certificates (highlighted in blue) all the documents uploaded, against the Users site(s), are displayed.

After clicking the link, the documents are displayed and each one has document name and a type.
