Application Tab

Fri, Jan 19, 2024 Portal Tabs

For Users that are likely to use the main Ostara Application, they will need to log into the Portal firstly to download it. To do this, access the "Application" tab. Upon doing so, a link to the download of the application will be displayed. Upon clicking the link, the option to save the setup file will be displayed. Save the file and then run it to start the installation of the application.
