Connection Test

🛗 Wed, Jan 17, 2024 🛛 🖿 Accessing the Application

Upon receiving connection errors such as "Cannot Connect to Service" messages, Users are able to check their connectivity to the Ostara system. To achieve this, use the Connection Test option in the System tab. Clicking this will display the following screen:

To perform the Connection Test, once the screen is open click the "Start Test" button. This will then display one of four different results and depending on the result, the User can then determine the course of action:

The system is working correctly with no connection issues:

Ostara network test			x
••••		• • • 🗹 •	•• 🥏
You => 335ms	Ostara		Internet
@		Start <u>T</u> est	<u>C</u> lose

Client Issues (typically no internet connection at all):

Ostara net	work test			x
	•••@•••		• • • 🕃 •	•• 🥏
You		Ostara		Internet
0			Start <u>T</u> est	Close

Ostara Issues. These issues will need to be reported to the Ostara Support Desk:

Ostara netv	vork test			x
	• • • 🌠 • • •		•••@••	•• 🥏
You		Ostara		Internet
0			Start <u>T</u> est	<u>C</u> lose

Client Issues (typically network/server issues etc):

To get more information about the result of the Connection Test, hover over the "?" and a message is displayed.
